

Urban Design Interiors is an Edmonton firm with a commitment to provide efficient high quality design services. Our unique philosophy proudly ensures our designs meet the functional and aesthetic needs of our clients today, while providing long term sustainability for tomorrow. Our strong construction and interior building design background ensures our designs are distinctive and satisfying but also reflect meaningful real-world solutions. Our focus in this area sets us apart, offering our clients the very tangible benefit of an overall design lifespan which actually parallels the economic lifespan of each physical design component. Our design philosophy is not only responsible in a sustainable sense, but is also fiscally relevant as construction costs continue to spiral.

Our Service Focus:

- Conceptual Design
- Space Planning
- Finish/Furnishing Selection and Procurement
- Site Survey and Analysis
- Project Budgeting and Costing
- Project Management and Coordination
- Contract Administration

Urban Design Interiors

Katherine Fischgrund, NCIDQ
Principal, Interior Designer
